'Tis the season for giving! We can't think of a better gift to give family members and friends than one of our great 4Life products. It's a wonderful way to introduce someone to all of the benefits that 4Life has to offer.

On Wednesday, December 14, 2011, 4Life Founders David and Bianca Lisonbee will appear on the TODAY Show with Kathie Lee and Hoda. The segment will air live from Studio 2A at the Rockefeller Center in Manhattan, New York. The Lisonbees will represent Foundation 4Life® and 4Life distributors around the world with a retail value donation in excess of \$330,000 USD.

It was an honor for us to represent all of you last week on the NBC TODAY show in New York City for their annual holiday toy drive. This is the fifth year 4Life has participated with the Direct Selling Association in supporting this great cause. Because of your generosity and the continued success of 4Life, this year we were able to contribute 2,500 backpacks, each filled with school supplies, toys (a cow pillow pet and remote control truck), a tube of enummi® Toothpaste, toothbrush, and a bottle of 4Life Transfer Factor® Chewable Tri-Factor® Formula.

In 2013, 4Life will celebrate 15 years of science, success, and service. Today, we are stronger than ever, thanks to the dedication of our distributors. Next Tuesday, October 16, we will dedicate the new south building of 4Life Global Headquarters and the event will be streamed live. Watch this Facebook event for more details!
